

- ❖ Keep ammunition, explosives, and expended brass and links separated.
- ❖ Leaders ensure you have an effective amnesty program for ammunition and explosives.

**The mission is
over...
Do you know where
your grenade went?**

**ASP and DLA turn-in points
continue to find live
rounds and even grenades
among expended brass
and links.**

**Your negligence could lead
to someone's death!**

- ❖ If you are unsure what to do with excess ammunition or explosives, contact EOD or the ASP under the amnesty program.
